AANA Journal

Volume 68
2000 AANA Journal Index

The following is an index of the major topics addressed in the *AANA Journal* during 2000. The index is alphabetized according to headings, and entries appear in chronological order within the headings. Author and subject indexes are integrated.

A

AANA Journal Course No. 19 2000 Evaluation Form, 173
AANA Journal Course No. 19 Examination Information—Update for nurse anesthetists, 171
AANA Journal Course No. 19 Examination—Update for nurse anesthetists (answer form), 172
AANA Journal Course No. 19 Examination—Update for nurse anesthetists (examination questions), 176
AANA Journal Course No. 19—Update for nurse anesthetists (examination answers), 369
AANA Journal Course
Part 6—Anesthesia for the ruptured globe, 73; Part 1—Transient neurologic symptoms and spinal anesthesia, 163; Part 2—Refrigerated anesthesia-related medications, 265; Part 3—Low molecular weight heparin: Pharmacology and regional anesthetic implications, 357; Part 4—The ruddy globule: The erythrocyte—Its biology, chemistry, and functional variations, 463; Part 5—Intraoperative fluid management for the pediatric surgical patient, 531
Absenteeism:
Comparing the effects of stress and relationship style on student and practicing nurse anesthetists, 115
Accreditation: see Education News, 111, 299
Achondroplasia:
Anesthesia for cesarean section for achondroplastic dwarf: A case report, 305
Acid-base balance:
see *AANA Journal* Course, Part 4, 463
Acrylic (dental): see Letters, 287
Acute circulatory and respiratory collapse in obstetrical patients: A case report and review of the literature, 444
Airborne precautions:
Transmission-based precautions and anesthesia care, 37
Airway:
Dental guards: Helpful or hazards? A case report, 127; Anesthesia for cesarean section for achondroplastic dwarf: A case report, 305; The effect of nitrous oxide on laryngeal mask cuff pressure, 411
Alternative medicine:
Use of complementary and alternative medicines by surgical patients, 13; Hemorrhage after the preoperative use of complementary and alternative medicines, 217
Ambulatory surgery:
Patient perceptions of the importance of maintaining preoperative NPO status, 321; Does ketorolac produce preemptive analgesic effects in laparoscopic ambulatory surgery patients? 343
Amniotic fluid embolism:
Acute circulatory and respiratory collapse in obstetrical patients: A case report and review of the literature, 444
Analgesia:
Comparison of 4 analgesic agents for venipuncture, 43; Does ketorolac produce preemptive analgesic effects in laparoscopic ambulatory surgery patients? 343
Anderson MT see Bensky KP
Anesthesia:
Preanesthesia detection of equipment faults by anesthesia providers at an academic hospital: Comparison of standard practice and a new electronic checklist, 497
Anesthesia care team:
A comparison of nurse anesthesia practice types, 452
Anesthesia for cesarean section for achondroplastic dwarf: A case report, 305
Anesthesia equipment:
Preanesthesia detection of equipment faults by anesthesia providers at an academic hospital: Comparison of standard practice and a new electronic checklist, 497
Anesthesia program directors:
see Education News, 299
Anesthetic implications of subacute left ventricular rupture following acute myocardial infarction: A case report, 415
Antibiotic resistance:
Laryngoscope handles: A potential for infection, 233
Anticoagulation:
see *AANA Journal* Course, Part 3, 357
Antimicrobial agents: see Letters, 287
Antitrust: see Legal Briefs, 291
Anxiety:
An investigation of the effect of 2 sedation regimens on patient mood state following upper extremity surgery using local anesthesia, 135
Assessment of blood pressure discrepancies in third-trimester hypertensive gravidas, 425
Aspiration:
see *AANA Journal* Course, Part 6, 73; Dental guards: Helpful or hazards? A case report, 127
Atracurium:
AANA Journal Course, Part 2, 265

B

Baker MT: see Letters, 287
Baker SA, Benz CA, Dalton NA, Smith JJ, Stillmunkes AN, Elliott BA, Thompson ES: An investigation of the effect of 2 sedation regimens on patient mood state following upper extremity surgery using local anesthesia, 135
Banked blood:
Massive blood transfusion therapy, 311
Bard JW: Anesthetic implications of subacute left ventricular rupture following acute myocardial infarction: A case report, 415
Barnes AM, Frantz RA: Do oxygen-enriched atmospheres exist beneath surgical drapes and contribute to fire hazard potential in the operating room? 153
Bensky KP, Donahue-Spencer L, Hertz GE, Anderson MT, James R: The dose-related effects of bolus esmolol on heart rate and blood pressure following laryngoscopy and intubation, 437
Benz CA: see Baker SA
Benzyl alcohol:
Comparison of 4 analgesic agents for venipuncture, 43
Berner N: see Rodgers L
Biddle C: see *AANA Journal* Course, Part 4, 463; Preanesthesia detection of equipment faults by anesthesia providers at an academic hospital: Comparison of standard practice and a new electronic checklist, 497
Bilateral tension pneumothorax during jet ventilation, 241; see Letters, 484
Bispectral index:
Perioperative monitoring with the electroencephalogram and the bispectral monitor, 333
Blike G: see Biddle C
Blood:
Laryngoscope handles: A potential for infection, 233; Massive blood transfusion therapy, 311
Blood chemistry:
see *AANA Journal* Course, Part 4, 463
Blood loss:
see *AANA Journal* Course, Part 5, 531
Blood pressure:
Use of complementary and alternative medicines by surgical patients, 13; The dose-related effects of bolus esmolol on heart rate and blood pressure following laryngoscopy and intubation, 437; Assessment of blood pressure discrepancies in third-trimester hypertensive gravidas, 525
Blood transfusion:
Massive blood transfusion therapy, 311
Blumenreich GA: see Legal Briefs, 9; 107 [correction, 204]; 201; 404
Body fluids:
Laryngoscope handles: A potential for infection, 233
Boeson MB, Hranchook A, Stoller J: Peripheral nerve injury from intravenous cannulation: A case report, 53
Books and Media of Interest:
The Pain Clinic Manual, 105; Management of the Difficult Airway (CD-ROM), 105; The Handbook of Preoperative Assessment and Management, 401
Bradycardia:
Acute circulatory and respiratory collapse in obstetrical patients: A case report and review of the literature, 444
Bupivacaine:
Influence of Whitacre spinal needle orifice direction on the level of sensory blockade, 67; see *AANA Journal* Course, Part 1, 163
Burgos N: see McShane FJ
Burnout:
Comparing the effects of stress and relationship style on student and practicing nurse anesthetists, 115

C

Cabell CA: Does ketorolac produce preemptive analgesic effects in laparoscopic ambulatory surgery patients? 343
Cannulation:
Peripheral nerve injury from intravenous cannulation: A case report, 53
Captain of the ship doctrine:
see Legal Briefs, 201, 405
Carboprost:
AANA Journal Course, Part 2, 265
Cardiac effects:
Use of complementary and alternative medicines by surgical patients, 13
Cardiac tamponade:
Anesthetic implications of subacute left ventricular rupture following acute myocardial infarction: A case report, 415
Cardiovascular anesthesia:
Anesthetic implications of subacute left ventricular rupture following acute myocardial infarction: A case report, 415
Catheter, pulmonary artery:
Newer trends in monitoring: The esophageal Doppler monitor, 421
Cauda equina syndrome:
see *AANA Journal* Course, Part 1, 163
Centers for Disease Control and Prevention (CDC):
Transmission-based precautions and anesthesia care, 37
Cephalic vein:
Peripheral nerve injury from intravenous cannulation: A case report, 53
Ceramic crowns: see Letters, 287
Certification: see Legal Briefs, 9; Education News, 111; Computerized adaptive administration of the self-evaluation examination, 227
Cesarean section:
Anesthesia for cesarean section for achondroplastic dwarf: A case report, 305; Acute circulatory and respiratory collapse in obstetrical patients: A case report and review of the literature, 444
Child: see *AANA Journal* Course, Part 5, 531
Circulatory collapse:
Acute circulatory and respiratory collapse in obstetrical patients: A case report and review of the literature, 444

Cisatracurium:
AANA Journal Course, Part 2, 265
Clayton BL, Lypek DJ, Connelly LM: Faculty perceptions of characteristics needed for clinical success at military nurse anesthesia programs, 515
Coagulation:
Use of complementary and alternative medicines by surgical patients, 13; Hemorrhage after the preoperative use of complementary and alternative medicines, 217; Massive blood transfusion therapy, 311; Acute circulatory and respiratory collapse in obstetrical patients: A case report and review of the literature, 444
Communication:
Comparing the effects of stress and relationship style on student and practicing nurse anesthetists, 115
Comparing the effects of stress and relationship style on student and practicing nurse anesthetists, 115
Comparison of 4 analgesic agents for venipuncture, 43
Competition:
see Legal Briefs, 291
Complementary medicine:
Use of complementary and alternative medicines by surgical patients, 13; Hemorrhage after the preoperative use of complementary and alternative medicines, 217
Compliance:
see Legal Briefs, 107 [correction, 204]; Patient perceptions of the importance of maintaining preoperative NPO status, 321
Complications:
Do oxygen-enriched atmospheres exist beneath surgical drapes and contribute to fire hazard potential in the operating room? 153
Computer checklist:
Preanesthesia detection of equipment faults by anesthesia providers at an academic hospital: Comparison of standard practice and a new electronic checklist, 497
Computerized adaptive administration of the self-evaluation examination, 227
Computerized adaptive testing:
Computerized adaptive administration of the self-evaluation examination, 227
Consciousness:
Perioperative monitoring with the electroencephalogram and the bispectral monitor, 333
Conspiracy: see Legal Briefs, 291
Contact precautions:
Transmission-based precautions and anesthesia care, 37
Contracts: see Legal Briefs, 291
Convenience:
Comparison of 4 analgesic agents for venipuncture, 43
Conversion factors: see Reimbursement News, 59
Coopmans VC, Gries CA: CRNA awareness and experience with perioperative DNR orders, 247
Coping resources:
Comparing the effects of stress and relationship style on student and practicing nurse anesthetists, 115
Corazza ML, Hranchook AM: Massive blood transfusion therapy, 311
Correction: 204, 486
Cost factors:
Statistical method using operating room information system data to determine anesthetist weekend call requirements, 21; Comparison of 4 analgesic agents for venipuncture, 43; Xenon: Anesthesia for the 21st century, 259; Perioperative monitoring with the electroencephalogram and the bispectral monitor, 333; Newer trends in monitoring: The esophageal Doppler monitor, 421
Coumarins:
Hemorrhage after the preoperative use of complementary and alternative medicines, 217
Council for Public Interest in Anesthesia, Official listing of members, 551
Council on Accreditation:
List of programs to be reviewed during fiscal year 2001, 170; Programs to be reviewed during fiscal year 2002, 514; Official listing of members, Recognized educational programs, 539
Council on Certification of Nurse Anesthetists, Official listing of members, 550
Council on Recertification of Nurse Anesthetists, Official listing of members, 550
CPT 2000 anesthesia code changes: see Reimbursement News, 59
CRNA awareness and experience with perioperative DNR orders, 247
Crowns, dental: see Letters, 287
Cuff pressure:
The effect of nitrous oxide on laryngeal mask cuff pressure, 411
Culpepper TL: see *AANA Journal* Course, Part 5, 531
Curriculum: see Education News, 111
Custom and routine practice:
see Legal Briefs, 107 [correction, 204]
Cystic fibrosis:
An update on cystic fibrosis and implications for anesthesia, 141

D

Dalton NA: see Baker SA
Dangel-Palmer MC: see Rodgers L
Del Risco J: see Shumway SH
Dental guards: Helpful or hazards? A case report, 127; see Letters, 287
Dental injury:
Dental guards: Helpful or hazards? A case report, 127
Determining staffing requirements for a second shift of anesthetists by graphical analysis of data from operating room information systems, 31
Dexter F, Macario A, Traub RD: Statistical method using operating room information system data to determine anesthetist weekend call requirements, 21
Dexter F, Traub RD: Determining staffing requirements for a second shift of anesthetists by graphical analysis of data from operating room information systems, 31
Dichlorotetrafluoroethane spray:
Comparison of 4 analgesic agents for venipuncture, 43

Dietary supplements:
Use of complementary and alternative medicines by surgical patients, 13
2,3-Diphosphoglycerate:
see *AANA Journal* Course, Part 4, 463
Diprivan: see Letters, 287
Disinfection:
Laryngoscope handles: A potential for infection, 233
Dislocation of the mandible: A case report, 507
Disodium edetate: see Letters, 287
Dix HM: see Books and Media of Interest, 105
Dix LA: see Books and Media of Interest, 401
DNR orders:
CRNA awareness and experience with perioperative DNR orders, 247
Do oxygen-enriched atmospheres exist beneath surgical drapes and contribute to fire hazard potential in the operating room? 153
Does ketorolac produce preemptive analgesic effects in laparoscopic ambulatory surgery patients? 343
Donahue-Spencer L see Bensky KP
Do-not-resuscitate orders:\
CRNA awareness and experience with perioperative DNR orders, 247
Doppler monitoring:
Acute circulatory and respiratory collapse in obstetrical patients: A case report and review of the literature, 444; Newer trends in monitoring: The esophageal Doppler monitor, 421
The dose-related effects of bolus esmolol on heart rate and blood pressure following laryngoscopy and intubation, 437
Droplet precautions:
Transmission-based precautions and anesthesia care, 37
Drug interactions:
Use of complementary and alternative medicines by surgical patients, 13; Hemorrhage after the preoperative use of complementary and alternative medicines, 217; see *AANA Journal* Course, Part 3, 357
Dwarfism:
Anesthesia for cesarean section for achondroplastic dwarf: A case report, 305

E

Economics:
Statistical method using operating room information system data to determine anesthetist weekend call requirements, 21; Determining staffing requirements for a second shift of anesthetists by graphical analysis of data from operating room information systems, 31; A comparison of nurse anesthesia practice types, 452
Education:
The International Federation of Nurse Anesthetists: 10 years later, 209; see Education News, 299; Faculty perceptions of characteristics needed for clinical success at military nurse anesthesia programs, 515
Education News:
Education of nurse anesthetists in the United States, 111; should nurse anesthesia programs be directed by a CRNA? 299
Education, preoperative:
Patient perceptions of the importance of maintaining preoperative NPO status, 321
The effect of nitrous oxide on laryngeal mask cuff pressure, 411
Electroencephalogram power spectrum:
Perioperative monitoring with the electroencephalogram and the bispectral monitor, 333
Electrolytes:
Use of complementary and alternative medicines by surgical patients, 13
Elliott BA see Baker SA
Embolism:
Acute circulatory and respiratory collapse in obstetrical patients: A case report and review of the literature, 444
Emergency power:
AANA Journal Course, Part 2, 265
Emphysema:
Bilateral tension pneumothorax during jet ventilation, 241; see Letters, 484
Employment:
A comparison of nurse anesthesia practice types, 452
Epidural hematoma:
see *AANA Journal* Course, Part 3, 357
Equipment:
Laryngoscope handles: A potential for infection, 233
Erythrocytes: see Red blood cells
Esmolol:
The dose-related effects of bolus esmolol on heart rate and blood pressure following laryngoscopy and intubation, 437
Esophageal Doppler:
Newer trends in monitoring: The esophageal Doppler monitor, 421
Ethics:
CRNA awareness and experience with perioperative DNR orders, 247
Evidence: see Legal Briefs, 107 [correction, 204]
Exclusive contracts: see Legal Briefs, 291
Expert testimony: see Legal Briefs, 201
Expiration dates:
AANA Journal Course, Part 2, 265
Eye:
see *AANA Journal* Course, Part 6, 73

F

Factor Xa:
see *AANA Journal* Course, Part 3, 357
Faculty perceptions of characteristics needed for clinical success at military nurse anesthesia programs, 515
Faut-Callahan M: see Education News, 111
Fedele KA see Patterson P
Fentanyl:
Does ketorolac produce preemptive analgesic effects in laparoscopic ambulatory surgery patients? 343
Fetotoxicity:
Xenon: Anesthesia for the 21st century, 259
Fiedler MA: see Books and Media of Interest, 105
Finlayson CA: see Norred CL

Fire:
Do oxygen-enriched atmospheres exist beneath surgical drapes and contribute to fire hazard potential in the operating room? 153
Fluid management:
see *AANA Journal* Course, Part 5, 531

G

Gas scavengers:
Do oxygen-enriched atmospheres exist beneath surgical drapes and contribute to fire hazard potential in the operating room? 153
Genetics:
An update on cystic fibrosis and implications for anesthesia, 141
Globe, perforated:
see *AANA Journal* Course, Part 6, 73
Goode JS Jr: see Letters, 484
Graphical analysis:
Determining staffing requirements for a second shift of anesthetists by graphical analysis of data from operating room information systems, 31
Gries CA: see Coopmans VC
Guest Editorial: The International Federation of Nurse Anesthetists: 10 years later, 209; Computerized adaptive administration of the self-evaluation examination, 227
Gunn IP: see Imagining in Time, 487
Gynecology:
Does ketorolac produce preemptive analgesic effects in laparoscopic ambulatory surgery patients? 343

H

Hackman CM: see Patterson P
Hall SM: see Education News, 299
Halliburton JR, McCarthy EJ: Perioperative monitoring with the electroencephalogram and the bispectral monitor, 333
Hardy MJ, Huard C, Lundblad TC: Bilateral tension pneumothorax during jet ventilation, 241
Health Care Financing Administration (HCFA):
see Reimbursement News, 59; Legal Briefs, 404
Heart rate:
The dose-related effects of bolus esmolol on heart rate and blood pressure following laryngoscopy and intubation, 437
Hematoma:
see *AANA Journal* Course, Part 3, 357
Hemodynamics:
Newer trends in monitoring: The esophageal Doppler monitor, 421
Hemoglobin:
see *AANA Journal* Course, Part 4, 463
Hemorrhage after the preoperative use of complementary and alternative medicines, 217
Hemostasis:
Massive blood transfusion therapy, 311
Heparin:
see *AANA Journal* Course, Part 3, 357
Herbs:
Use of complementary and alternative medicines by surgical patients, 13; Hemorrhage after the preoperative use of complementary and alternative medicines, 217
Hereditary diseases:
An update on cystic fibrosis and implications for anesthesia, 141
Hertz GE: see Bensky KP
History, anesthesia:
The International Federation of Nurse Anesthetists: 10 years later, 209; see Legal Briefs, 404
Holland MS: see Education News, 299
Homeopathic medicine:
Use of complementary and alternative medicines by surgical patients, 13
Hranchook A; see Boeson MB
Hranchook AM: see Corazza ML
Huard C: see Hardy MJ
Hussa AA: see Patterson P
Hyperbaric lidocaine:
see *AANA Journal* Course, Part 1, 163
Hypertension:
Assessment of blood pressure discrepancies in third-trimester hypertensive gravidas, 525
Hypovolemia:
see *AANA Journal* Course, Part 5, 531

I-J

Imagining in Time:
Pearl Harbor, the Korean Conflict, and COL Mildred Irene Clark, 487
Index to Advertisers, 88; 192; 276; 391; 476; 572
Induction pain perception after premedication with propofol vs lidocaine: A pilot study, 149
Induction:
see *AANA Journal* Course, Part 6, 73; Induction pain perception after premedication with propofol vs lidocaine: A pilot study, 149
Inert gases:
Xenon: Anesthesia for the 21st century, 259
Infection:
Massive blood transfusion therapy, 311
Infection control:
Transmission-based precautions and anesthesia care, 37; Laryngoscope handles: A potential for infection, 233
Influence of Whitacre spinal needle orifice direction on the level of sensory blockade, 67
Information for Authors, 42; 169; 258; 374; 468; 524
Information systems:
Statistical method using operating room information system data to determine anesthetist weekend call requirements, 21; Determining staffing requirements for a second shift of anesthetists by graphical analysis of data from operating room information systems, 31
Informed consent: see Legal Briefs, 201

Inhalation:
Xenon: Anesthesia for the 21st century, 259
Injury:
Peripheral nerve injury from intravenous cannulation: A case report, 53
Insulin:
AANA Journal Course, Part 2, 265
Insurance: see Legal Briefs, 9
International Federation of Nurse Anesthetists:
The International Federation of Nurse Anesthetists: 10 years later, 209
Interpersonal relationships:
Comparing the effects of stress and relationship style on student and practicing nurse anesthetists, 115
Intraocular pressure:\
see *AANA Journal* Course, Part 6, 73
Intrathecal anesthesia:
see *AANA Journal* Course, Part 1, 163
Intravenous therapy:
Peripheral nerve injury from intravenous cannulation: A case report, 53
Intubation:
The dose-related effects of bolus esmolol on heart rate and blood pressure following laryngoscopy and intubation, 437
An investigation of the effect of 2 sedation regimens on patient mood state following upper extremity surgery using local anesthesia, 135
Isolation:
Transmission-based precautions and anesthesia care, 37
James R: see Bensky KP
Jet ventilation:
Bilateral tension pneumothorax during jet ventilation, 241; see Letters, 486
Joyce JA: Xenon: Anesthesia for the 21st century, 259

K

Kapp M: see McShane FJ
Karlett MC: An update on cystic fibrosis and implications for anesthesia, 141
Kauffman KE: Newer trends in monitoring: The esophageal Doppler monitor, 421
Kendrick P: Comparing the effects of stress and relationship style on student and practicing nurse anesthetists, 115
Ketorolac:
Does ketorolac produce preemptive analgesic effects in laparoscopic ambulatory surgery patients? 343
Klain M: see Letters, 484
Korean Conflict: see Imagining in Time, 487
Kramer FM: Patient perceptions of the importance of maintaining preoperative NPO status, 321

L

Labor costs:
Determining staffing requirements for a second shift of anesthetists by graphical analysis of data from operating room information systems, 31
LaHaye L: see *AANA Journal* Course, Part 4, 463
Laparoscopy:
Does ketorolac produce preemptive analgesic effects in laparoscopic ambulatory surgery patients? 343
Laryngeal mask airway:
The effect of nitrous oxide on laryngeal mask cuff pressure, 411
Laryngoscope handles: A potential for infection, 233
Laryngoscopy:
The dose-related effects of bolus esmolol on heart rate and blood pressure following laryngoscopy and intubation, 437
Laser surgery:
Bilateral tension pneumothorax during jet ventilation, 241; see Letters, 484
LaVelle T, Zaglaniczny K, Spitzer LE: Computerized adaptive administration of the self-evaluation examination, 227
Leadership: see Education News, 299
Leak pressure (airway):
The effect of nitrous oxide on laryngeal mask cuff pressure, 411
Legal Briefs:
The importance of being certified, 9; The importance of following procedures in anesthesia, 107 [correction, 204]; Being smart about malpractice, 201; One more battle in the competitive struggle, 291; Supervision, 404
Letters:
Comparative propofol emulsion stabilities, 287; Dental guards: Helpful or hazards? 287; Bilateral tension pneumothorax during jet ventilation, 484; Editor's Note, 486.
Level of consciousness:
Perioperative monitoring with the electroencephalogram and the bispectral monitor, 333
Lewis B: see *AANA Journal* Course, Part 2, 265
Liability: see Legal Briefs, 9
Lidocaine:
Comparison of 4 analgesic agents for venipuncture, 43; Induction pain perception after premedication with propofol vs lidocaine: A pilot study, 149; see *AANA Journal* Course, Part 1, 163
Litigation: see Legal Briefs, 9
Lovell SL: see Education News, 111
Low molecular weight heparin:
see *AANA Journal* Course, Part 3, 357
Lundblad TC: see Hardy MJ

M

Macario A: see Dexter F
Malpractice:
see Legal Briefs, 107 [correction, 204]; see Legal Briefs, 201
Management:
Statistical method using operating room information system data to determine anesthetist weekend call requirements, 21; Determining staffing requirements for a second shift of anesthetists by graphical analysis of data from operating room information systems, 31
Management Briefs:
Understanding the new Medicare Outpatient Prospec-

tive Payment System, 491
Mandibular condyle, dislocation, and subluxation:
Dislocation of the mandible: A case report, 507
Massive blood transfusion therapy, 311
Mastropietro C: see Education News, 299
McCall WG: see Education News, 111
McCarthy EJ: see Halliburton JR; Education News, 111
McFadden LR, O'Donnell JM, Rose CE: Dental guards: Helpful or hazards? A case report, 127
McGlothlen S: Anesthesia for cesarean section for achondroplastic dwarf: A case report, 305
McShane FJ, Burgos N, Kapp M, Wieczorek C: Influence of Whitacre spinal needle orifice direction on the level of sensory blockade, 67
Mean arterial pressure:
The dose-related effects of bolus esmolol on heart rate and blood pressure following laryngoscopy and intubation, 437
Medical direction:
see Legal Briefs, 291, 404
Medicare Outpatient Prospective Payment System: see Management Briefs, 491
Medications:
AANA Journal Course, Part 2, 265
Memory formation:
Perioperative monitoring with the electroencephalogram and the bispectral monitor, 333
Meperidine:
see *AANA Journal* Course, Part 1, 163
Metabolic changes (in banked blood):
Massive blood transfusion therapy, 311
Microenvironment:
Do oxygen-enriched atmospheres exist beneath surgical drapes and contribute to fire hazard potential in the operating room? 153
Microorganisms:
Laryngoscope handles: A potential for infection, 233
Midazolam:
An investigation of the effect of 2 sedation regimens on patient mood state following upper extremity surgery using local anesthesia, 135
Military:
Faculty perceptions of characteristics needed for clinical success at military nurse anesthesia programs, 515; see Imagining in Time, 487
Minnesota Association of Nurse Anesthetists:
see Legal Briefs, 291
Misrepresentation: see Legal Briefs, 9
Monitoring:
Perioperative monitoring with the electroencephalogram and the bispectral monitor, 333; Newer trends in monitoring: The esophageal Doppler monitor, 421; Acute circulatory and respiratory collapse in obstetrical patients: A case report and review of the literature, 444; Assessment of blood pressure discrepancies in third-trimester hypertensive gravidas, 525
Mood states:
An investigation of the effect of 2 sedation regimens on patient mood state following upper extremity surgery using local anesthesia, 135
Mortality rate:
Anesthetic implications of subacute left ventricular rupture following acute myocardial infarction: A case report, 415
Motenko NP: see Legal Briefs, 291
Muscle relaxants:
see *AANA Journal* Course, Part 6, 73; *AANA Journal* Course, Part 2, 265
Myocardial infarction:
Anesthetic implications of subacute left ventricular rupture following acute myocardial infarction: A case report, 415

N

Narcotic drugs:
see *AANA Journal* Course, Part 1, 163
Nerve injury:
Peripheral nerve injury from intravenous cannulation: A case report, 53
Neuroma:
Peripheral nerve injury from intravenous cannulation: A case report, 53
Newer trends in monitoring: The esophageal Doppler monitor, 421
Nitrous oxide:
Xenon: Anesthesia for the 21st century, 259; The effect of nitrous oxide on laryngeal mask cuff pressure, 411
Norred CL, Finlayson CA: Hemorrhage after the preoperative use of complementary and alternative medicines, 217
Nosocomial infection:
Laryngoscope handles: A potential for infection, 233
Notice (legal): see Legal Briefs, 9
NPO status:
Patient perceptions of the importance of maintaining preoperative NPO status, 321
Nurse anesthetists: see Imagining in Time, 487

O

O'Donnell JM: see McFadden LR; see Letters, 484
Obstetrics:
Anesthesia for cesarean section for achondroplastic dwarf: A case report, 305; Acute circulatory and respiratory collapse in obstetrical patients: A case report and review of the literature, 444; Assessment of blood pressure discrepancies in third-trimester hypertensive gravidas, 525
Occupational hazards:
Xenon: Anesthesia for the 21st century, 259
Occupational stress:
Comparing the effects of stress and relationship style on student and practicing nurse anesthetists, 115
Ocular anesthesia:
see *AANA Journal* Course, Part 6, 73
Operating room economics:

Statistical method using operating room information system data to determine anesthetist weekend call requirements, 21; Determining staffing requirements for a second shift of anesthetists by graphical analysis of data from operating room information systems, 31
Oral intake:
Patient perceptions of the importance of maintaining preoperative NPO status, 321
Organization and administration:
A comparison of nurse anesthesia practice types, 452
Ouelette SM, Caulk RF: The International Federation of Nurse Anesthetists: 10 years later, 209
Ouellette RG: The effect of nitrous oxide on laryngeal mask cuff pressure, 411
Outpatient Prospective Payment System: see Management Briefs, 491
Outpatient surgery:
see *AANA Journal* Course, Part 1, 163
Oxygen:
Do oxygen-enriched atmospheres exist beneath surgical drapes and contribute to fire hazard potential in the operating room? 153
Oxygen transport:
